Sometimes I go about pitying myself.

The major aspect in effect all November is the Saturn/ Pluto square which will be exact on November 15.. One of the Sabian symbols associated with this aspect is **The Light of the Sixth Race Transmuted to the Seventh**. This symbol speaks of the importance of evolving to a higher level of consciousness. The other symbol is **Three Stained Glass Windows in a Gothic Church, One Damaged by War**.* This speaks about damage to things that have represented security or safety in the past.

As we move into November many paradigms which represented security and stability seem to be crumbling around us. What is called for is the evolution of consciousness in order to develop more healthy models.

As Pluto transits through Capricorn for the next fifteen years or so, corruption and/or abuses of power in big business, government and the corporate world will be revealed for the purpose of transformation. It can seem more frightening when we are in the breakdown phase as we are now.

This planetary Saturn/Pluto /Uranus cycle also correlates to the sixties – and clearly, many of the issues then are back on the table now.

The early part of the month favors making amends through compassion, forgiveness and kindness.

The Full Moon is November 2. This Moon provides a very good time for meditation, prayer and creative work.

From the 5th through the 15th Mercury in Libra will be making a harmonious trine to the Jupiter /Neptune Chiron conjunction. This provides an excellent period for inspirational work also – meditation, artistic projects and the expansion of ideas. Keep ideas big and integrate pragmatism later.

In his book **Ethics for a New Millennium** the Dalai Lama stresses the importance of being conscious of what we are thinking. This period (11/ 5- 11/15) is a good time to contemplate and evolve thought patterns.

The Saturn Pluto Square mentioned above is exact on 11/15.

The 27th through the end of the month is a good time to be open to innovative ideas. Information also comes at us fast under this aspect.

" Our deeper struggles are in effect our greatest spiritual and creative assets and the doors to whatever creativity we might possess...." *David Whyte*
